| | |
|---|---|
| Pallet dimensions L x W | |
| Pallet bottom boards (parallel or perpendicular) to conveyor travel? | |
| Minimum pallet load height | |
| Maximum pallet load height | |
| Minimum pallet weight (if less than 440 lbs) | |
| Maximum pallet weight | |
| Pallet infeed side (narrow or wide side leading) | |
| Type of conveyors required (roller, chain…) | |
| Pallet conveyor height | |
| Type of load (Cartons/bags/shrink-packs etc.) | |
| Load smaller than pallet (yes or no. If yes specify which sides and by how much) | |
| Load bigger than pallet (yes or no. If yes specify which sides and by how much) | |
| Production requested (pallets/hour) (with how many wraps, if asked) | |
| Will Machine be in line with others? | |
| Top-sheet requested (yes or no) | |
| If top-sheet is requested, dust proof or/and waterproof | |
| Film standard 90 gauge high pre-stretch, specify if different) | |
| Special communication with other PLC to exchange signals (yes or no. If yes, specify which one like profibus, modbus...) | |
| Standard components (yes or no. If not, specify the required components brands) | |
| Top Press Y/N | |
| How many infeed pallet positions | |
| How many outfeed pallet positions | |
| Safety cage (yes or no) | |
| Muting photocell (yes or no) | |
| Electrical power if not standard ( standard is 3x400V, 50Hz, neutral, earth) | |
| Existing Compressed air supply (yes or no) | |
