

# RAVAS

**Drive Less.  
Weigh Smarter.  
Save More.**

See how mobile weighing transforms efficiency in your warehouse.

Every trip to the static scale is lost time.

Mobile weighing cuts that distance and your costs by a minimum of

**30%**

**Average Net Savings in Year 1  
with Mobile Weighing**

**\$11,730**  
(1 shift/unit)

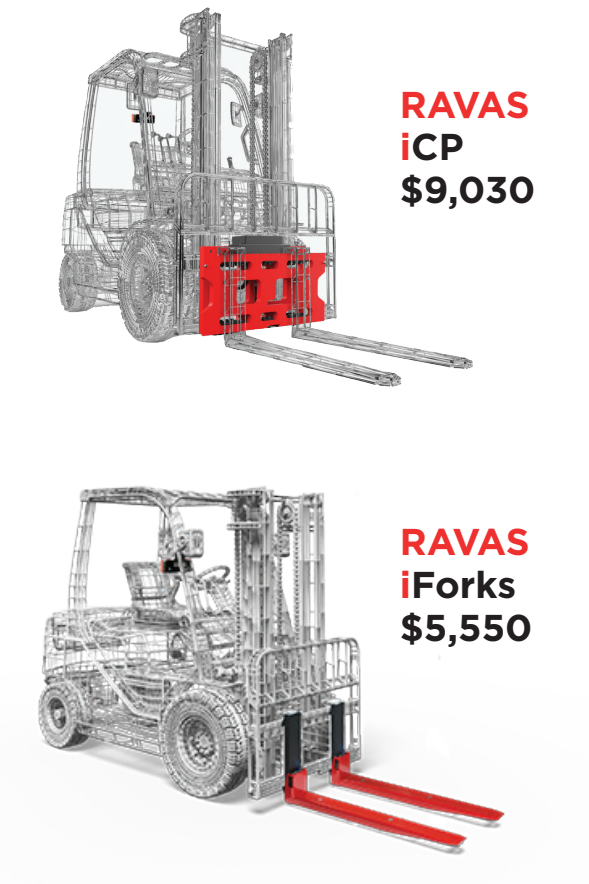

\*See reverse for calculation

- Mobile Weighing Path**  
Efficient mobile weighing path  
= 150 ft or applicable distance.
- Floor Scale Path**  
Wasted travel to floor scale  
= 50 ft or applicable distance.

# Weighing Options: Compare the True Cost

## Mobile Weighing Investment

**Benefits:**

- Save time at the point of activity
- Increase throughput
- Fast ROI

**Pays for itself in less than a year**

## Traditional Static Weighing Costs

**Floor Scale Cost: \$2,500**

**Hidden Costs:** Operators travel time, bottlenecks, and underutilized labor

**No ROI**

**\*Net Savings Calculation:**

- Annual labor cost: .....\$57,600  
8 hrs/day x 300 days x \$24/hr
- 30% Efficiency Gain: .....\$17,280  
    > Annual Savings
- Minus Mobile Scale Investment: .....\$5,550
- Mobile Weighing Savings: .....\$11,730  
    > Average Net Savings in Year 1
